General information

Minister: André Lamontagne, MNA for Johnson

Mission: Promote a quality food supply and support the development of a prosperous and sustainable bio-food sector contributing to the vitality of territories and the health of the population.

Vision: In synergy with partners and to meet consumer needs, the MAPAQ is at the service of a bio-food sector committed to feeding the world.

Values: The MAPAQ values collaboration, professionalism, transparency, and equity in the development and delivery of its services for the benefit of the public interest.

2019-2023 Orientations: In keeping with its context, mission and the availability of resources, the MAPAQ has established two issues and three orientations that it will prioritize between 2019 and 2023.

First issue: A dynamic bio-food sector that listens to consumers

- Orientation 1
 - Meet the expectations of consumers here and abroad
- Orientation 2
 - Support entrepreneurs and partners in the sector

Second issue: An organization adapted to a changing business environment

- Orientation 3
 - Strengthen organizational cohesion and performance

Organizations linked to the MAPAQ

- **La Financière agricole du Québec**
 - Its mission is to support and promote (in a perspective of sustainable development) the development of the agricultural and agri-food sector.
- **La Commission de protection du territoire agricole du Québec**
 - The Commission strives to guarantee future generations a territory conducive to the exercise and development of agricultural activities by ensuring the protection of agricultural land and placing this objective at the heart of the community's concerns.
- **La Régie des marchés agricoles et alimentaires du Québec (RMAAQ)**
 - Acts as an organization for economic regulation and dispute resolution in the areas of production and marketing.

- **Le Conseil des appellations réservées et des termes valorisants (CARTV)**
 - Established in 2006 by the Government of Québec to ensure the application of the *Loi sur les appellations réservées et les termes valorisants*, the CARTV highlights and ensures the authenticity of local biofood products for the benefit of communities.
- **L'Institut de technologie agroalimentaire du Québec (ITAQ)**
 - The ITAQ is a college-level educational institution that offers seven technical training programs related to agricultural, food, agri-environmental, horticultural and equine activities, as well as a continuing education service in these activity sectors. It has two campuses, one in La Pocatière and the other in Saint-Hyacinthe.

Programs

The MAPAQ designs and implements various programs to develop the bio-food sector.

The MAPAQ's programs are available to consult via three different portals and grouped by topic.

- *Productions animale et végétale*
- *Pêche et aquaculture commerciales*
- *Transformation et distribution alimentaires*

Productions animale et végétale

More than 30 individual programs fall under the 16 topics that are found via this portal including the following **regional development**

programs:

- *Appui au développement de l'agriculture et de l'agroalimentaire en région*
- *Appui pour la conversion à l'agriculture biologique*
- *Initiative ministérielle « Productivité végétale »*

- *Plan de soutien aux investissements en agriculture visant le bien-être animal et l'efficacité énergétique*
- *Programme d'appui aux expositions agricoles*
- *Programme Proximité*
- *Territoires : drainage et chaulage des terres*
- *Territoires : priorités bioalimentaires*
- *Territoires : relève, entrepreneuriat et entreprises de petite taille.*

Pêche et aquaculture commerciales

7 individual programs related to the activities of Québec's commercial fishing and aquaculture sector are found via this portal.

Transformation et distribution alimentaires

15 individual programs related to processed food products (raw materials + food processing sector).
