

Conseils régionaux des partenaires du marché du travail (CRPMT)

FAQ

WHAT?

The *Loi sur le ministère de l'Emploi et de la Solidarité sociale et sur la Commission des partenaires du marché du travail et sur la CPMT* establishes the formation of a Regional Labour Market Partners Council (CRPMT) in each of Québec's 17 regions.

WHO?

A CRPMT is made up of a member representing local development in the region, the regional director of Services Québec, and members from the following labour market organizations:

- employers
- workforce
- community employability organizations
- educational stakeholders

CRPMT members are appointed by the Minister, with appointments striving for gender parity.

A CRPMT has the authority to invite individuals to its meetings who can provide assistance in its discussions. These invitees do not have voting rights and can represent:

- the ministère de l'Éducation
- the ministère de l'Enseignement supérieur
- the directeur régional du ministère de l'Économie et de l'Innovation
- the directeur régional de la Commission de la construction du Québec.

HOW?

A CRPMT has several functions. Each region's CRPMT:

- defines the labour market issues in its region, in accordance with the general orientations of labour market policy
- submits an annual regional action plan regarding workforce and employment, which includes public employment services, to the CPMT

- submits an annual opinion to the CPMT on the harmonization of public services with provincial, sectoral and regional orientations, strategies and objectives
- adapts labour and employment measures, programs and funds to the realities of the region, if the conditions for their implementation so permit
- identifies regional labour and employment strategies and objectives
- proposes criteria to the CPMT for the distribution of resources related to labour and employment measures, programs and funds allocated at the regional level;
- identifies issues that may be the subject of regional labour and employment agreements with any regional county municipality (MRC) concerned;
- promotes regional labour and employment strategies and objectives to any MRC concerned

WHY?

A CRPMT can find solutions to local skills development issues. They promote:

- interventions aimed at disadvantaged individuals or groups in the labour market in its region, including agreements with community organizations working in the fields of labour and employment
- cooperation between employers, unions, and social partners and the educational and economic sectors (including the creation of advisory committees)
- implementation of employment assistance, workforce development and local development programs.
